Opportunity Statuses

Opportunity statuses are a [customizable](#) list of stages an Opportunity can be in.

Each Opportunity Status always has a `status_type` of either `active`, `won`, or `lost`.

List opportunity statuses for your organization.

GET `/status/opportunity/`

Example Request/Response

Create an opportunity status.

POST `/status/opportunity/`

There are three different types of opportunity statuses: `active`, `won`, `lost`.

To create an Opportunity Status in a specific [Pipeline](#), include a `pipeline_id` in your payload.

Example Request/Response

Rename an opportunity status.

PUT `/status/opportunity/{status_id}/`

Example Request/Response

Delete an opportunity status.

DELETE `/status/opportunity/{status_id}/`

You should make sure no opportunities are assigned this status, first.

Example Request/Response
